The gold piece of Hieron II is of unusually fine style, see Pozzi 651, 652, 653 all of much inferior style, they brought 550, 960, 760 francs. The stater of Lysimachus came to me direct from Athens and is from one of the

two finds made in Macedonia during the war. Only four were found of this die, one other of which I sold some time ago for $125 having purchased it in London for £25. I am sending you the Numismatic Chronicle giving a description of the find and coins, page 9.

Dear Mr. Garrett,

Your favor enclosing check rec'd and please accept thanks for same. I am sending you by express to-day a very fine gold stater of Antiochus III of Syria, price #300. I have never had this coin but once before, a slightly finer specimen which I sold for #450. It was purchased from Mr. Newell for #375. The specimen in the Pozzi collection brought 1550 francs and was not nearly as fine. I am enclosing the price list of the Pozzi sale and ask that you will return it as soon as you have had the prices copied as I have not had a chance to mark them in my catalogue.

Dear Mr. Raymond:-

Mr. Wood send me a catalog of numismatic books for sale by W. H. Valentine, 60, Upper Kennington Lane, London, S.E.11, No. 202 of which is Lane-Poole's "Mohammadan Dynasties 1894," which he offers for 10 s. You might order the copy which I asked you to get from Valentine.

I have not had time to check up your invoices since I returned to Baltimore and cannot get at it until sometime next week. I shall go over things then and let you know.

Mr. Wayte Raymond,
489 Park Avenue,
New York, N. Y.

Dear Mr. Raymond:-

I am enclosing my check for the last lot of coins I bought, including the Stater of Antiochus III.

I have looked carefully over all your letters and bills since September 1st and I find you wrote me under date of September 10th that you had certain important gold pieces of which you gave a list. They were Lampsacus Citium, a gold Diabol of Syracuse, a gold Tetradrachn of Ptolemy III and four Electras of Lesbos. You did not send me these pieces, but I wrote you about them as follows and subsequently took the first two:-

"I think I shall want the Lampsacus Stater and Half Stater of Citium, but I must see them first and think it over. I shall come in about the first of October."

The only other mention of a Cyzican or other small gold or electrum piece since that date was in yourletter of January 26th, when you sent me a 1/12 Stater of Cyzicus which I bought. I think you must have had a wrong impression in your mind, vague as it seemed to me, that you had sent these pieces to me.

In regard to the Bement collection, I have looked over the catalog and I find so many thing in it that would be advantageous to my collection that I am at a loss to even make suggestions as to which I should most want. Perhaps you could let me know of any that you could get and that you think would be particularly desirable for me.

Dear Mr. Garrett

Your favor of the 15th inst. rec'd and please accept thanks for check. I did not really think I sent the small electrum pieces to you as they were not particularly fine. Will probably locate them some where else. I am sending you by express several new Greek coins and other pieces just received this week. The coins 1 to 10 are from the superb collection formed by Sir Herman Weber, from which collection Mr. Brument secured many of his fine pieces. The Segesta didrachm, Ephesus and Croesus pieces sold you some time ago were also from the same collection.

My dear Mr. Garrett

Through special kindness of one of my English friends I have been able to secure for your inspection several of the coins you suggested would be of interest to you. I am sending these to you by express to-day and hope they may meet with your approval. With few exceptions they are all pieces of extreme rarity and while the prices may startle you a little I can assure you they are all fairly valued. I have added very little to the prices quoted me and have taken the liberty of pricing them in English pounds.

The two Syracuse gold coins are gems of the first water. There can

WAYTE RAYMOND

be no comparison between these and the Pozzi specimens as his were not particularly choice specimens. Upon comparing them with the Bement plates I am ~~xxx~~ inclined to think the pieces submitted to you are much finer, especially the smaller one. If you can see your way clear to keep all or most of the coins it may be possible for me to secure a small reduction and payment could be spread over several weeks. This also might help ~~xxxx~~ in securing additional pieces of importance.

It is not necessary for me to go into any dissertation on any of the coins as they speak for themselves and would greatly enhance the interest of your already fine Collection.

Dear Mr. Raymond:-

Although the six Greek coins you sent me would be desirable additions to my collection, I cannot help feeling that your English friend has over-reached himself in putting his prices on them. They are so far beyond anything that I feel justified in paying that I am reluctantly returning them to you today. I have compared their condition as far as possible and the prices quoted with similar ones in recent sales, and I find that they are priced from twice to as much as ten times above the figures realized from more or less similar pieces. I am sorry, for they are pieces I should like to have in my collection.

Dear Mr. Garrett

Your letter rec'd also the Coins. Your remarks as to prices rather put me on the defence as I have made it a point never to send you a coin at a price I thought excessive. I have made a study of the values of Greek Coins for fifteen years and am familiar with the prices of European dealers, particularly in regard to rarities. I presume you are quoting the Pozzi sale prices but this is hardly fair. All European sales are principally attended and controlled by dealers and low prices on certain do not justify the supposition that the pieces could have been bought at any such figure if you had personally attended the sale. When you look at this from a dealer's angle you can see that

WAYTE RAYMOND
489 PARK AVENUE
NEW YORK

2

RARE COINS AND MEDALS NUMISMATIC BOOKS

it is really a very necessary protection to their retail trade.

In regard to the coins I sent you—
The standard retail price on a 100 litra piece of Syracuse was $1000 for many years, it has now gone up. Dr. Hirsch in Geneva asks from $1500 to $3000 for such pieces. He would paid $1000 for one he has at least ten years ago.

The same remarks apply to the 50 litra piece.

The Panticapaeum stater is the most perfect and full spread one I have seen.

The Seriphos stater I consider most reasonable. I am sure Mr. Brument paid more for his. Hardly any of the large collections sold in recent years have had this piece. The exceedingly low price brought by the Pozzi specimen may be explained by the fact that there is a very dangerous counterfeit of recent

489 PARK AVENUE
NEW YORK

3

RARE COINS AND MEDALS NUMISMATIC BOOKS

manufacture and the Pozzi coin may have been under suspicion. I have always considered such a coin to be worth 300 or 400.

The tetradrachm of Bithynia is a gem of gems. I have yet to see its equal.

Rare Greek coins are like rare U.S. cents, the superb condition makes a highly increased value over an average specimen.

A large majority of the coins in the Pozzi sale were not high class specimens due to the fact that the gems of the lot, wherever possible, were sold at high prices before the sale and less desirable specimens filled in.

I have cabled for possible concession on all these pieces and have had a fairly satisfactory reply. If you expect to be in the city soon think it would be more satisfactory to talk to you

about individual pieces. I would like very much to see you have the coins and want you to feel that I always have your interests in view as well as my own.

The balance of this invoice has now been received and I have sent them to you by express. The first three coins on this list I consider exceptional bargains. Even the Pozzi sale will bear me out in this. I also have a few other items of lesser importance, but will hold them until you come in.

I am going abroad on July 15th for about two months and hope to secure many interesting coins. Dear Mr. Raymond:-

I am keeping the Syrian Tetradrachm for which I enclose my check and returning the three other pieces which you recently sent me, as I already have two of them and do not want the Macedonian Stater.

In regard to the matter about which you wrote me, I should rather talk the matter over with you and as I expect to be in New York before you sail on June 15th, I shall come in to see you in regard to it.

Mr. Wood has recently been good enough to go over my Mohammedan coins for the purpose of identifying some of them which were uncertainly attributed. Among the pieces he looked over was one which you sold me and which I enclose to you herewith; his comment on it I also enclose. I should be very much obliged if you would look this matter up for me and find out for me from the source from which it came whether or not Mr. Wood's comment is correct, in which case I think it ought to be returned and I should be reimbursed for it.

My dear Mr. Garrett

Your favor of the 14th inst. rec'd and please accept thanks for enclosure. If there is any question about the Sudean gold coin I will of course take it back and you may deduct from your next remittance. It came to me from one of the largest London dealers so I will take it over with me this summer and see what they have to say. I am sending you by express a splendid lot of coins of the Ostrogoths and other pieces.

I agree with you that it will be better to talk over the matter, in regard to which I wrote, I can then tell you what I hope to secure

Yours very truly
Wayte Raymond.

RARE COINS AND MEDALS NUMISMATIC BOOKS

June 19, 1922.

Dear Mr. Garrett

I am sending you under separate cover the coins you selected to-day.

In regard to the early U.S. covers you have would you care to send me a few and will see if I can get a satisfactory offer for you? I have two or three collectors who would pay good prices for such covers with rare stamps.

Yours very truly
Wayte Raymond

P.S. Would be particularly interested in 12¢ stamp, cut for 6¢.

Dear Mr. Garratt

Have you progressed far enough with the examination of the Ellsworth coins to send me the duplicate of the 100 Mills Nova Constellatio piece? I have a collector here who is anxious to secure it. I believe we talked of a

part of the collection and have already sold a good many pieces. It looks now as if it would work out profitably.

Yours very truly
Wayte Raymond

Mar 15. Hartford would sell for $1,50

price of $1090 for this
coin and at that
price think I can place
it. If you decide to
sell one of the half dollars
the same collector would
be interested. I found
the little Bechtler dollar
among some of my things
also two California pieces
(Half Dols), will send them
to you in next package

I have been up to my
